

Navigating dento-legal challenges in periodontal care: course programme

This is an in-person course.

Speakers Leo Briggs – Deputy Head of Dental Division

Course content

09:00 Welcome/refreshments

09:15 Introductions and outline of the day

09:20 Looking at some of the difficulties that can arise when managing a patient with periodontal disease and appreciating why these can be different to the treatment of other common dental diseases and conditions.

10:40 Exploring the importance of good communication with patients so their expectations can be managed, and valid consent obtained.

11:00 Break

11:30 *Small group work:*

Each group will discuss the issues that can arise when treating patients under an NHS contract, under a private capitation scheme and when treating a patient privately.

12:45 Wrap up and questions.

13:00 Finish
